Guests: Darryl Hatheway, Bob Freitag, Terri Turner, and Janet Thigpen

- TMAC survey reminder
 - Dear ASFPM member,
The Technical Mapping Advisory Council (TMAC) is seeking input regarding the future flood hazard and flood risk identification program. Your input will be summarized and considered by TMAC as they support FEMA in considering the many ways to improve how flood hazard and risk information is generated and delivered.
Please take a moment out of your busy day to take the TMAC survey at <https://bit.ly/3eQxB15>
- Content from annual conference available through Jan
 - On ASFPM main Web Page click on: Site On-Demand Access to the ASFPM Virtual
- whatever else you might have
 - (ASFPM Foundation's grant to develop an Elev Cert guide (Tom M and Michael Blakely)

Introduce Darryl for a few updates

1. FEMA Standard 643 – FEMA to be required to obtain a CZMA consistency determination for prelim FIS and FIRM. Public comment period on new standard 643 begins Aug 1 and end Aug 30.
2. FEMA Coastal CNMS - Annual assessments of coastal study validity in FY-2019 included Louisiana (FEMA Reg 6), Delaware (FEMA Reg 3), and ME (FEMA Reg 1). Coastal assessments of study validity planned in - will focus on Texas (FEMA Reg 6) and VA/MD/PA (FEMA Reg 3). Coastal CNMS assessments do not begin until after hurricane season is over.
3. Coastal Mitigation Actions – Managed retreat is a strong approach to coastal flood hazard mitigation. Does ASFPM have a policy memo or position on the topic.
 - Good discussion of retreat. Buy out program that uses CBGB funds to auction Substantially Damage homes that the new owners will elevate or demo /rebuild to DFE.
 - In high risk area enforce no development or implement higher standards, is it considered a “Taking”
